Figure: Rack Intake Temperature, T_{in}^i, versus Rack Intake Number, i. The plot shows the Maximum Allowable Temperature, $T_{\text{max-all}}$; Maximum Recommended Temperature, $T_{\text{max-rec}}$; Minimum Recommended Temperature, $T_{\text{max-rec}}$; and Minimum Allowable Temperature, $T_{\text{min-all}}$. The Recommended Range and Allowable Range are indicated, along with the Under-Cooled and Over-Cooled regions at N.
